Greetings Alliance & Alliance project proposal submitters,

We are gearing up for the next meeting:

Medical Device Innovation Consortium (MDIC) Digital Pathology & AI Meeting
November 4, all day
Arlington, VA

sign up to attend this FREE event:

<https://mdic.org/event/digital-pathology-ai-exe/>

We are interested in showcasing a few project proposals during the Nov. 4 MDIC meeting.

We therefore ask that proposal submitters who wish to be chosen to present their proposal refine their work and convert it to a PowerPoint deck of a few slides. The proposal should be refined according to the scoring outline attached. PowerPoint decks will be evaluated based on the scoring outline, and those who score best will be chosen to present their idea at the MDIC Executives and Fellows meeting on Nov. 4. **We need you to submit your PowerPoint by Friday October 25 in order to be considered.** If you are struggling with the deadline, let us know.

The Alliance held a meeting on October 5th in Orlando – hosted by the DPA the Saturday before the Pathology Visions meeting. To all those who participated: thank you. The Meeting went well and we are working on updating the website. Meeting aims, presentations, and deliverables will be posted to the website shortly.

Please feel free to respond to this request and update with any questions you may have.

With kind regards

The Alliance.
